### 01. UNWIND

*Lyrics: Pierluigi Oliva*

*Music: Pierluigi Oliva & Claudio Lafalce.*

You walk around  
Avoiding the looks of the people  
Who don't understand you

It's always been this way

Look around  
See the faces are laughing at you  
But you don't give a damn

You ignore them every day

Then one day  
You run for shelter  
Hiding and scared of the crowd  
Hold them back  
Unnerving sensations emerge  
And you can't seem to cope.

Just keep going ahead  
Just keep going ahead

Move around  
Eternal moments of sorrow  
within yourself

Must keep going anyway

Stay around  
Face the facts and adversities  
With all your will and your power

They will soon all go away

Then one day  
You run for shelter  
Hiding and scared of the crowd  
Hold them back  
Unnerving sensations emerge

Let your heart unwind  
Leave your past behind  
Let your heart unwind  
Have a path in mind

Let your heart unwind  
Keep behaving out of line  
Find your soul and don't dismay  
Just keep going come what may  
(Let your heart unwind)

Then one day  
You run for shelter  
Hiding and scared of the crowd  
Hold them back  
Unnerving sensations emerge

Let your heart unwind  
Leave your past behind  
Let your heart unwind  
Have a path in mind

Let your heart unwind  
Keep behaving out of line  
Find your soul and don't dismay  
Just keep going come what may  
Let your heart unwind

Let your heart unwind  
Leave your past behind  
Let your heart unwind  
Have a path in mind

Let your heart unwind  
Keep behaving out of line  
Find your soul and don't dismay  
Just keep going come what may  
Let your heart unwind

Let your heart unwind  
Let your heart unwind

### 02. FEAR

*Lyrics & Music: Pierluigi Oliva.*

Snow keeps falling down  
It's all over the town  
And the darkness surrounds you  
Frightened faces appear  
Turning smiles into tears  
For another year

As I walk down the slope  
I can feel little hope  
For our fate and our future  
Endless nights in the cold  
No safe ground to behold  
All there's left is our fear

We live in fear  
We know we live in fear  
We all live in fear

As we thought she could be  
Our passage, our tree  
To climb out of this underworld  
Soon we realize  
And there is no surprise  
That we're bound here forever

From sad mornings to night  
Constant feeble light  
Brings despair and no joy  
While recalling old days  
Our lives free from this maze  
Our present is fear

Because we live in fear  
We know we live in fear  
We all live in fear

We still fight for a way out  
With wisdom and wit  
Still believing that change is right ahead

We're all hoping that love will still prevail  
and its force will just drive off all our fears

Meanwhile we live in fear  
We know we live in fear  
We all live in fear

Dawn brings clear new sky  
Newborn babies cry  
In a new awakening  
Dark old days seem gone  
As we carry on  
The new light brings us faith

As the years go by  
Our past makes us cry  
Just remembering darker days  
All that left behind  
Our present so kind  
We forget our fears

Cause we lived in fear  
We used to live in fear  
Yes, we lived in fear

### 03. BEYOND TODAY

*Lyrics & Music: Pierluigi Oliva.*

Love  
Sometimes you can't find  
Time to be around  
And to walk beside me  
To be near me

Love  
Sometimes I don't find  
Words to speak my mind  
And express all the feelings  
I can't hide

Maybe we could try one more time

And forgive us again  
Maybe we should see  
Beyond today

I can get so sad  
When we are far apart  
If you call me tonight  
My heart will shine bright

Love  
I'll be waiting for you to call  
Dreaming images on the wall  
Thinking silently what to say  
While face to face

Maybe we could try one more time  
And forgive us again  
Maybe we should see  
Beyond today

Maybe we could try one more time  
And forgive us again  
Maybe we should see  
Beyond today

Maybe we should see  
Beyond today  
Maybe we should see  
Beyond today

### 04. CHOOSE YOUR ROAD

*Lyrics & Music: Pierluigi Oliva.*

You're lonely on your own  
I sense that clearly when I hear you on the phone  
You say you need more time  
I tell you, baby, the decision is not mine  
'Cause I've made up my mind before  
That's why I'm knocking at your door  
And it's so clear to me that we belong together

Be free to choose your road  
And when you're ready let me lighten your load  
And you know how much I care  
And you're aware how much I'll dare  
Turn things all over again and again  
To make it better

Choose your road, choose your road,  
Choose your road, just choose your road

I try to keep you warm  
Amidst the rain and the mighty thunderstorm  
You're cornered by your past  
You think today that surely nothing will last  
You need to make your own decisions  
You want to set your own conditions  
But then your fears won't let you see things as they are

Be free to choose your road  
And when you're ready let me lighten your load  
And you know how much I care  
And you're aware how much I'll dare  
Turn things all over again and again  
To make it better

Be free to choose your road  
And when you're ready let me lighten your load  
And you know how much I care  
And you're aware how much I'll dare  
Turn things all over again and again  
To make it better

Choose your road, choose your road,  
Choose your road, just choose your road

### 05. WAITING

*Lyrics & Music: Pierluigi Oliva.*

He's always there in his room  
Time doesn't seem to pass  
His job is a dull routine  
He's just living in the past

The girl of his dreams hasn't come  
The last one he had in his arms  
Was fading away in the dark  
Left him alone in his room

Who can give me the right key  
For moving away from here  
Who will share my life  
I'm still waiting  
I feel pain deep inside  
I need someone to love

He's always there in his room  
Time doesn't seem to pass  
His job is a dull routine  
He's just living in the past

The day will finally come  
When someone will heal my  
wounds  
And I'll feel the joy again  
Being freed of my lonely days

I'm starting all over again  
I'm still waiting, waiting, waiting  
For the stars to guide my way  
For a love to come and stay

I'm still waiting  
I'm still waiting  
Ooh I'm still waiting  
Ooh I'm still waiting

I'm still waiting  
Ooh I'm still waiting  
I'm still waiting

## SIDE 2

### 01. IN A WINNER'S UNIVERSE

Lyrics: Claudio Lafalce

Music: Pierluigi Oliva & Claudio Lafalce.

Millions of bodies walk in silence  
Nothing to look at, except for the screen  
Sending a smile just for the picture,  
Posting their likes to the Milky Way

In a winner's universe  
Everybody looks so great  
The dream of being someone else

Glittering lives to boast to others  
Nobody shows when they lose or fail  
Success in life is just a number  
Of acolytes or followers

In a winner's universe  
Everybody looks so great  
The dream of being someone else

People, so desperate  
Looking for applause  
Looking for recognition,  
And acceptance, rather than  
Planting in their souls  
The seeds that spread  
Light, peace and love into the world  
How about you?

Showing us a happy world  
In a winner's universe  
Showing us the unreal  
Everybody looks so great  
Showing us a happy world  
The dream of being someone else  
It seems to be irresistible  
to belong or not be in  
A game called fame, fame, fame

In a winner's universe  
Everybody looks so great...

### 02. THE SAILOR'S DREAM

Lyrics: Pierluigi Oliva

Music: Pierluigi Oliva & Claudio Lafalce.

Far away, in the vastness of the sea  
His ship is confronting  
the waves of the ocean

So many places he's visited before  
So many years of sailing  
And people he has known

After all these years  
Of wrecks and castaways  
He's hoping that one day  
His dream will become true

The sight of a starry night  
and sailing in the search  
of an island and lighthouse  
and mermaids around him

The sailor's dream  
His greatest goal  
The sailor's dream  
Peace in his soul

Amidst the sea  
A land of his own  
Mist and haze  
Around his home

For years recalling  
The glories of the past  
From battles and foulings  
With loots so rewarding

From the harbour  
He sailed to the unknown  
Had to struggle hard

Surviving all the storms

And when the time comes  
To finally settle down  
A voice will still remind him  
Of all the things undone

So one starry night  
He sets out to sea  
To the island, the lighthouse  
The mermaids around him

The sailor's dream  
His greatest goal  
The sailor's dream  
Peace in his soul

Amidst the sea  
A land of his own  
Mist and haze  
All around his home

In his new home  
Of peaceful afternoons  
He sails the mornings  
While mermaids are chanting

Hidden treasures  
Are memories of his past  
The present day forsaken  
His tranquility will last

Now the blue whales  
Keep visiting his isle  
Swimming gracefully  
Delighting for a while

In his tranquility  
And dreams all realized  
When cold winds blowing  
Home is warming

The sailor's dream  
His greatest goal  
The sailor's dream  
Peace in his soul

Amidst the sea  
A land of his own  
Mist and haze  
Around his home

(Repeat)

### 03. LOVE AT FIRST SIGHT

Lyrics & Music: Pierluigi Oliva.

Love at first sight  
Just a blink of an eye and the universe opens  
An instant in life  
An impression that could be endearing and  
lasting

While all of the things we expected and  
hoped for  
Appear in an instant or so  
We are carried away by a feeling so strong  
That rapidly started to grow

Is it love?  
Is it shared?  
Will it last?

Love at first sight  
Warm emotions we cannot begin to under-  
stand  
I am easily seduced  
Like a magnet that pulls me and drags me so  
firmly

It's love at first sight  
As we secretly look at each other avoiding us  
You seem to blush  
We behave as accomplices of a high crime

But we know in our hearts that we longed for  
this moment  
And we will not put it aside  
As eternity opens its doors so gracefully  
We'll surely want to go by

Is it love?  
Is it shared?  
Will it last?

Love at first sight  
The blaze in our eyes  
Love at first sight  
Eternity now

Love at first sight  
A breathtaking present  
It's love at first sight  
No future, no past

But we know in our hearts that we longed for  
this moment  
And we will not let it aside  
As eternity opens its doors so gracefully  
We'll surely want to go by

Is it love?  
Is it shared?  
Will it last?

Love at first sight  
The blaze in your eyes  
Love at first sight  
Eternity now

Love at first sight  
A breathtaking present  
It's love at first sight  
No future, no past

Love at first sight  
The glow in our eyes  
Love at first sight  
The whole universe now

Love at first sight  
We have been given  
Love at first sight  
No future, no past

Love at first sight  
Love at first sight  
Love at first sight  
Love at first sight

### 04. SUMMER GROOVE

Lyrics: Pierluigi Oliva

Music: Pierluigi Oliva & Claudio Lafalce.

Everybody's needing sunshine  
Everybody's seeking fun  
All of us are wanting freedom  
Everybody's partying now

Everybody's high and happy because  
Everyone is on the beach  
All of us are dancing to the music  
Nobody is out of reach

The night before you told me  
You were kind of feeling down  
And I said hold on, baby  
I'll take you to a higher ground

It's summer night and we know  
We just have to move around  
We'll find that crazy party  
We are all going and no one is staying 'cause

Everybody's needing sunshine  
Everybody's seeking fun  
All of us are wanting freedom  
Everybody's partying now

Everybody's high and happy because

Everyone is on the beach  
All of us are dancing to the music  
Nobody is out of reach

Night of intense emotions  
My head was spinning around  
I looked and you were laughing  
Totally immersed in the sound

The night just took us over  
We're hoping that this will never end  
Oh baby just come closer  
Let's dance together tighter 'cause  
life seems so much brighter

Everybody's needing sunshine  
Everybody's seeking fun  
All of us are wanting freedom  
Everybody's partying now

Everybody's high and happy because  
everyone is on the beach  
All of us are dancing to the music  
Nobody is out of reach

Everybody's needing sunshine  
Everybody's seeking fun  
All of us are wanting freedom  
Everybody's partying now

Everybody's high and happy because  
Everyone is on the beach  
All of us are dancing to the music  
Nobody is out of reach

### 05. ALWAYS YOU

Lyrics & Music: Pierluigi Oliva

If I lie on the ground  
On a prairie of lilies and jasmines  
I will gaze at the colourful sunset  
Take a deep breath containing emotions  
With the notion, in my heart profoundly,  
That confronting the beauty of the world there  
is always  
You

If I look at the crests in the ocean  
Watching waves and the rough sea below  
I will hear the wind with its voices  
When the breeze strikes my body and soul  
Still aware, in a blink of enlightenment  
In the world I am watching with joy there is  
always  
You

If I fly in the sky  
Watching clouds and the ground underneath  
I will sense the lightness of feathers  
Feel the freedom of floating above  
But however audacious the adventure  
I know deep in my heart that wherever I go  
There's always  
You
